

I enjoy the privacy that I recieve from Indiana's Do-Not-Call List. It saves me and my family time and frustration from not having to deal with telmarketers. Please do not make Indiana make changes to the Indiana No-Call list because the Consumer Bankers Association wants to start making telemarketing calls to Indiana No-Call list registrants. If I want to hear from someone or want to buy something from someone I will let them know. Make them send it in the mail. Thanks.
